

## MeskoToys' new Christmas tree train track set brings fun to the holidays

By MeskoToys

Dated: Nov 28, 2008

*MeskoToys introduces a new and unique Christmas tree wooden train track set. This 16 piece track set makes a 4-ft diameter circle that will fit around a Christmas tree. It is compatible with Thomas and Brio trains. Made in Michigan, USA.*

The image of a toy train circling a Christmas tree is a classic. Christmas train sets have long brought much joy and delight to children and adults alike and add a special touch to Christmas decor. Many Christmas train sets are made of plastic or metal. However, with so many families owning small and large collections of fine wooden trains (Thomas, Brio, etc.), why not showcase some of those trains, add to the wonder of the Christmas season and give children an opportunity to play with their trains under the Christmas tree? With that in mind, MeskoToys, a leading Michigan-based manufacturer of wooden train tracks and a subsidiary of MeskoTech Inc., has recently introduced its new wooden Christmas Tree Train Track Set (see their website at <http://MeskoToys.com>). This unique set includes 16 special curved track pieces that together form a 4-foot diameter circle track; the perfect size to setup under a Christmas tree. This set is compatible with most fine wooden train brands including Thomas the Tank Engine, Brio and others. Not only is this a fun idea, but it is also eco-friendly: this set is made in the USA out of "Tree-cycled" solid maple hardwood. This wood comes from urban fallen trees or lumber yard surplus material that would otherwise go to waste. This timeless gift is a jolly idea that will surely appeal to Santa Claus himself!.
